PRODUCT DATASHEET · AI ENGINE

MCP Server

Your entire ERP, exposed as a Model Context Protocol server.

RetailDA™ exposes the whole system as an MCP server — tools, resources and prompts — so your agents query live data and execute management functions inside your permission model, with every call audited and every agent on your own keys.

97
terminals live on one deployment

5 yrs
production on the original build

Air-gap
proven at defence sites

₹20L
lost in 48h — none since

WHAT IT CHANGES ON THE FLOOR

Native MCP endpoint
The entire ERP as an MCP server — connect Claude, ChatGPT or your own agents and let them work the business.

Acts, not just answers
Tool calls read and write the ledger — stock lookups, draft POs, discount rules — executed inside roles, with approval trails.

Orchestration
Your agents can reach outward too — external MCP servers become tools the business can drive.

Per-user ceilings
Token and cost caps per identity, enforced server-side.

Full audit
Every agent call logged with who, what and which rows.

In production since 2021 — retail, defence, education, manufacturing & hospitality

AVAILABILITY

Included on Scale, or +₹3,999/site/mo ($49) AI Engine add-on

RUNS ON

Any device · offline-first · your infrastructure or ours

COMPLETE CAPABILITY SET — 10 FEATURES

- ✓ Native MCP endpoint — tools, resources & prompts
- ✓ Works with Claude, ChatGPT & any MCP-aware agent
- ✓ Agents act inside the owner's permission model
- ✓ Per-user token & cost ceilings
- ✓ Human approval gates for sensitive ops
- ✓ Tool calls read & write the ledger — stock, POs, discounts
- ✓ OAuth-secured connection
- ✓ Orchestration — your bots reach external MCP servers too
- ✓ Every call audited with rows touched
- ✓ REST API alongside for scripts

BUILT FOR

All industries

THE ECONOMICS

	RETAILDA™	PER-SEAT SAAS PATTERN
Pricing unit	Per site — staff accounts unlimited	Per user — every hire compounds the bill
Modules	Toggle on what you need, priced like apps	Per-module add-ons stacked on per-seat tiers
Connectivity	Runs fully offline — forever, if you want	No link, no sale
Data	One database per client — export anytime	Multi-tenant pool, export rituals

How MCP Server compares

Verified against current competitor pricing and feature documentation — retailda.com/compare#mcp-server

ALTERNATIVE	WHERE RETAILDA™ WINS
Everyone else	The whole ERP exposes a native MCP endpoint — Claude, ChatGPT or your own agents act inside your permission model. No SMB commerce system ships this.
Zapier-style glue	Deterministic tool calls with audit trails vs black-box webhook chains.
Custom API work	Agents inherit the owner's role — scoped, logged, reversible.

DEPLOYMENT MODELS

MODEL	WHAT IT MEANS
Shared cloud	Fastest start — provisioned, patched and monitored for you. Per-site pricing, unlimited staff.
Private cloud	Your own isolated instance — one client, one database. No multi-tenant pooling.
TolsTek Host	On-premise enterprise server — ECC memory, power-loss-protected NVMe, hardware RAID. Also runs the local AI daemons.
Air-gapped	Zero external calls, permanently — proven at defence installations where isolation is mandatory.

WORKS WITH — the platform fabric

UPI & QR · EMV terminals · ESC/POS & thermal · LoRaWAN · Zigbee · MAVLink · MCP agents · ONDC (testing) · WhatsApp Business · Excel/CSV · CloudPRNT · OTAs via channel pipeline

RUNS WITH

AI Control Center · AI C.M.O · Enterprise RAG · Conversational Agents · Spatial Intelligence

Deployment & rollout

What a MCP Server deployment actually looks like — bring this page to whoever signs off.

ROLLOUT

01 **Sandbox first**
Your catalogue, opening stock and flows run in a sandbox before anything touches production.

02 **Guided migration**
Bulk import of items, barcodes, suppliers and opening stock — Excel/CSV in one pass.

03 **Pilot site**
One counter or one site goes live first — measured against your old process, not promises.

04 **Staged rollout**
Remaining sites switch over on your schedule — staged, sandbox-first cutover.

COMMERCIAL MODEL

Pricing	Included on Scale, or +₹3,999/site/mo ($49) AI Engine add-on — priced per site, never per user. Staff accounts are unlimited.
Ownership	Your data, your keys, your export — leave with everything. No data lock-in.
Support	Real engineers, ticket-based. Feature unlocks are toggles, not projects.

Included on Scale, or +₹3,999/site/mo ($49) AI Engine add-on
